

A MODERN WEBSITE FOR GRASSROOTS FOOTBALL LEAGUES

This website brings fixtures, clubs, forms and league updates into one central place, helping committees reduce admin and keep everyone informed.

→ You can view a [live demo of the website](#) via our store (password: grassroots).

In partnership with

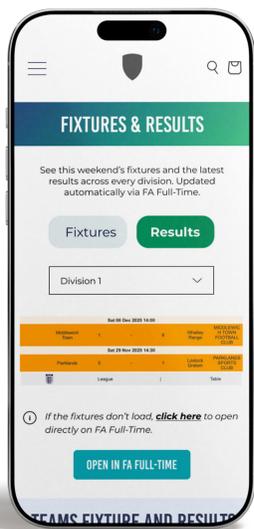

**CENTRE
CIRCLE**

MAIN FEATURES

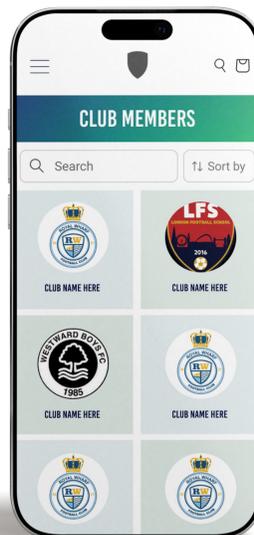

Fixtures, results and tables

Clear, reliable displays using FA Full-Time feeds, so everyone knows where to look.

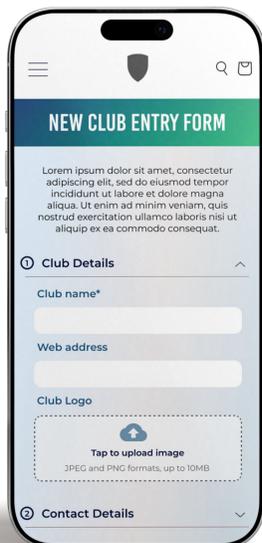

Club directory

Badges, contact details and venue information for every team in the league.

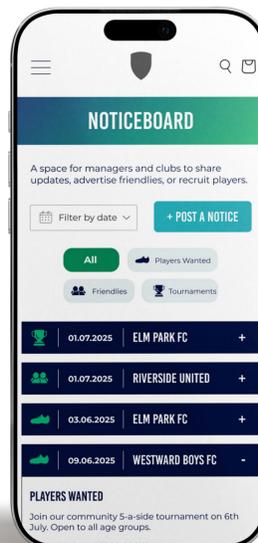

League forms (all online)

New club applications, incident reports, postponements, volunteer interest and sponsorship enquiries — submitted through the website and automatically organised in Google Sheets for the committee to review.

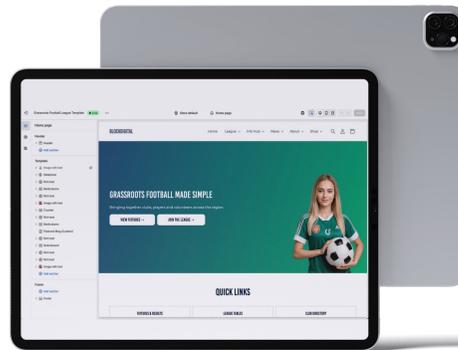

News, notices and documents

Share league updates and keep handbooks, policies and codes of conduct in one central place.

Optional revenue tools

Support sponsorships, events or digital products if the league chooses to.

Easy to update

Built for committees, not developers. Anyone on the team can manage it.

PRICING

£750 + VAT (one-off)

Includes:

- Full setup and branding
- Connection to your league's domain (we'll handle the setup — domain cost paid directly by the league)
- Go-live support
- **10 free development hours** for any tweaks or additions

Your league website can be **live in 7-10 days.**

ONGOING COSTS

The only ongoing cost is a standard **Shopify Basic** subscription (£19 per month), paid directly to Shopify. This covers secure hosting, regular updates, performance, and reliability, so there's nothing for the league to maintain or manage day to day.

NEXT STEPS

If this looks suitable for your league, we can walk you through a short demo and answer any questions.

Let us know and we'll arrange a time that works for you.
